

News about quada V+F Laser welding wires

Résumé of the Schweißen & Schneiden

24.11.2017 09:56

After long preparation and a waiting period of four years the Schweißen & Schneiden was beyond our expectations.

We had prepared different laser systems and our latest laser welding wire QuEISI and we were pleasantly surprised. Customers, interested parties and friends came with different tasks or just wanted to try the ALV 100 and the piggy®Welder.

We could build some new partnerships and business relations in follow-up to some good discussions during the fair.

After five days of exhibition events a thoroughly positive balance can be drawn and we are very excited for the next Schweißen & Schneiden.

Invitation for Fakuma 2017

28.09.2017 10:54

Dear customers,

from **17th October 2017** we will attend at the Fakuma in Friedrichshafen. You can visit us until Saturday **21st October** to discuss your welding-related problems or tasks.

Do you have any questions which you want to discuss personally or do you just want to stop by for a cup of coffee?

Doesn't matter, we appreciate your visit!

Therefore we would like to invite you to visit us at the fair in **hall A1, booth 1122**.

Please contact us to request your personal voucher by e-Mail (co.thiel@quada-office.com).

We are looking forward to our first Fakuma and especially to welcome you at our booth.

Many greetings

Your quada-team

Invitation for Schweißen & Schneiden 2017

22.08.2017 14:15

Dear customers,
after four years the Schweißen & Schneiden fair comes back to Germany.
The international fair for joining, cutting and surfacing takes place in Düsseldorf from **25th to 29th September 2017**.

We will be there too and are happy to present you our latest welding wire **QuEISI**.
It is most suitable for welding hard metals. The **QuEISI** distinguishes itself through a low sensitivity to cracks in hard metal. Higher lifetime is achieved through improved wear resistance and a simpler welding process. Visit us at our stand and test that new laser welding wire yourself.
Also you can test the ALV system from Alpha Laser at our stand.

Therefore we would like to invite you to visit us at the fair in **hall 11, booth D18**.

Do you have any questions which you want to discuss personally or do you just want to stop by for a cup of coffee?
Doesn't matter, we appreciate your visit!

Please contact us to request your personal voucher by e-Mail (co.thiel@quada-office.com).

We are looking forward to the Schweißen & Schneiden and especially to welcome you at our booth.

Many greetings

Your quada-team

Résumé of the Moulding Expo 2017

19.06.2017 14:48

Experts from tool making, model and mould making industries met at the Moulding Expo in Stuttgart for the second time. Of course we've been present for the second time too. This time with a complete new stand, but equally motivated as 2015.

It was a pleasure to welcome our visitors on our new stand and to have intense conversations.

Customers and interested parties could get information about our welding wires, laser systems, our service and also our novelties. There was also space to give advices on specific welding assignments as far as known.

The Moulding Expo 2017 was a great success for all participants and we would like to thank our stand builder Live Project and our colleagues for such great cooperation.

See you next time.

Invitation for Moulding Expo 2017

08.05.2017 10:42

Dear customers,

for the second time we are attending at the Moulding Expo from May 30th to June 2nd. After the first time was so successful we are curious what will happen this year at the fair.

Therefore we would like to invite you as our guests. Please make sure to get your personal voucher by mail (co.thiel@quada-office.com) or by phone +49 2304 - 966 38 22.

We are looking forward to see you at our stand 3B20 in hall 3. Please visit us for expert discussions or just a cup of coffee. We're waiting for you.

Many greetings from Schwerte

Your quada-team
